GOOD FOR FEE WAIVED APPLICATION

August 19, 1983

Dear Student,

You are at a time in your life when many important decisions must be made. One of those decisions is where to go to college. To make a decision about college you must decide what you want from your education. This is not a decision to be made hastily. You will probably be spending four or more years at the college that you choose.

If Loyola University is your choice you can expect to receive many benefits from your time spent with us. One of the benefits you will receive is your prospects for a bright career future. Loyola graduates go into the world well prepared for what lies ahead. You can also expect Loyola to be an affordable choice. Loyola's tuition and fees are very reasonable. We have a healthy supply of financial aid, and we are able to meet 100% of a student's financial aid need as established by FAF or FFS. You can also expect to feel at home at Loyola. Our campus is a very friendly place.

Loyola University is a medium sized Liberal Arts University with a total enrollment of 4,600 students. Loyola is also a Catholic, Jesuit University. We feel this makes us a very special place. The Jesuit fathers have dedicated their lives to education. The Jesuit philosophy of education is unique in that it strives to educate the whole person. Loyola seeks to instill not only knowledge, but also the ability to apply that knowledge.

Why not stop by the campus and have a look at us? An Admissions Office staff member would be happy to show you Loyola. You will also be able to visit the department or departments that you are considering. Maybe you would like to sit in on a class or two, or just stroll around the campus and begin to know Loyola. We feel confident you will find it time well spent.

Enclosed you will find a postage free card that entitles you to a fee waived application for admissions. In addition to the application fee being waived, we will also send you information about the programs that are of interest to you.

Our best wishes for a most successful year! Call us anytime we may be of assistance.

Sincerely,

Rebecca Brechtel

I find it the hardest thing, to write about my family or myself, but I was asked to do this, so I will. I don't mind. There might be people who would like to know what its like to be the child of a gay person. I think its a very important thing to people, to learn about different lifestyles. A poor person might wonder whats its like to be rich. And even so rich people might wonder whats its like to be a poor, unknown person.

I see neither the poor or the rich. But I see both sides and take what I can from each. I've had the chance to see life from two different ways. I see the persecution of the gays by the straights and vice versa. I see the lack of knowledge and the presence of fear in both gays and straights. I'm lucky.

I think one thing people must understand is that, being the child of a gay parent is almost like being the child of any parent (almost). But instead of having to put up with all of my mother's boyfriends, I put up with all her girlfriends. Inflation bothers us, it bothers everyone (doesn't it?) We have the same problem in housing and food like everyone else. We also feel the world problems like other people too. The only difference is what goes on behind the doors of my mother's bedroom. Sometimes, though, I wonder if that counts.

I began to understand my mother, really, at about nine or ten. We had been in NYC for ^{or couple} ~~about~~ years, and I realized something was different, almost wrong. I was born and had lived in New Orleans, where there were Mardi Gras parades every spring.

I began to understand my mother, really, at about nine or ten. We had been in NYC for ^{or couple} ~~about~~ years, and I realized something was different, almost wrong. I was born and had lived in New Orleans where there were Mardi Gras parades every spring.

No one made noises, or jeered, or laughed like they did in the parades, like they did in New York. And no one was afraid to go either.

I had seen elections and heard votes being taken before. Why at 554 did people get so mad? I cried that night at two in the morning, after all the votes, the riot, and the tears. I understood later that I cried because people wanted to live their own way, and weren't allowed.

New York was the biggest part of my life in MCC. The people, the city, the church, the parades, all of these I'll never forget.

The best part about New York, or any other city I've been in, is that you can always tell if a person was gay and went to MCC by a pin with a pink triangle or an MCC cross.

I've attended the Gay Pride parades since I was nine. My most memorable one was when I was ten and my mother was General Marshall. The two of us walk at the very front of the parade with this pack of junk that weighed a ton, and a mic. We walk from Christopher St to Central Park listening to my mother yell "Out of the Closets, and into the streets!" That's when I learned. To be an MCC minister you have to have a mouth. I'm lucky know two of the best mouths in ^MMCC - my mother and Tony Perry.

My least favorite time was when my mother was turned down for the ministry. I heard all the stories and all the tears, but I still didn't see the purpose.

There are many things that have happened

over the seven year period of our being in MCC.
I've made and lost a good friend, in fact many
good friends. But also I've kept many more. Instead
of collecting ~~friends~~ ^{friends}, I collect family. I came into MCC
with two brothers and my mother, right now - I have
two sisters, six brothers, two mothers, one father, one
grandfather, and Papa Paul, who is both grandfather and
father to me, an aunt, and two ~~cousins~~ ^{cousins}. All of these
people are almost twice my age and more. All of them
I've known within the seven year period. How that for
a population boom.

Not only have the people left a mark in my life,
but the cities. Cities like New York, Boston, Providence,
Los Angeles, and now Oxnard; all of these cities have
made a big indentation in my life. ~~all the~~

All the people from all over the world at each
General Conference; all the boring things at District
Conferences and Christian Ed Conferences (at least for kids),
all of these, all the joy all the pain all the friends
are because of MCC. (For those of you who were
at the latest General Conference, I was the kid
with the skateboard at the Biltmore). I could
swear I've seen every MCC'er in America and probably
the rest of the world. All of these things have
happened because I'm the child of a gay person.

What would Anita Bryant say. I bet she's never
seen every evangelistic person in America, and if she
has, how many can she hug on sight, or leave knowing
they'll meet again.
